

Reference Manual for The Use of Precipitation Design Events in The Upper Thames River Watershed

BEFORE USING THIS SOFTWARE YOU WILL NEED TO INSTALL PDF READING SOFTWARE (ADOBE ACROBAT or FOXIT PDF READER). IF YOU DO NOT HAVE A PDF READER INSTALLED ONE IS AVAILABLE FREE OF CHARGE AT www.foxitsoftware.com

The UTRCA Design Storms Report CD is intended to be used as a tool in hydrologic modeling within the Upper Thames River Watershed. The material contained on this CD is not to be considered as design criteria nor is its application necessary for approvals by the UTRCA. All decisions made based on the information provided on this CD are to be made by a professional. It is the responsibility of the professional to ensure its, accuracy and applicability.

The design storm browser on this CD allows the user to select design storms and save them to their computer for use in hydrologic modeling. The user **MUST** read the accompanying documentation "Report" and "Appendix" before using the storms provided by the browser. The Upper Thames River Conservation Authority accepts no liability for any damages caused by the use of these design storms.

AES Data was purchased by the UTRCA to be sold at cost by the UTRCA to persons undertaking studies or designs within the Upper Thames River Watershed. The UTRCA has not reviewed this data for accuracy. The Upper Thames River Conservation Authority accepts no liability for any damages caused by the use of this data.

This CD is not to be reproduced or distributed without the written consent of the UTRCA. All rights reserved. Copyright UTRCA 2006.
